

Ski lifts and cable cars

130 km of wide and perfectly groomed **slopes** are waiting for you in **Alta Badia**. Thanks to the **central location** and the **direct ski connections** in the **Dolomiti Superski skiing carousel**, you have the opportunity to indulge to your heart's content your love of skiing on **500 km of slopes**. The **lift facilities** that serve our ski slopes include **short and fast cable cars**, which take you from the villages to the plateaus, comfortable and **modern multi-seater chair lifts**, as well as **some ski lifts**.

A total of **21 access points to the ski area** - one of the largest in the Dolomiti Superski carousel with **slopes which lead directly down to the valley** - make it possible for you to start your skiing day, as it were, directly from your room.

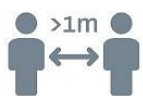

And don't forget: **Alta Badia** is situated **directly** on the slopes of the Sellaronda and the First World War ski tour.

The following safety measures are being implemented at the lifts:

- Access to the ski lifts is organised in such a way that **social distancing** between skiers can be guaranteed.
- Distance markers are placed on the ground in front of the ticket counters and at the entrances to the lifts.
- The lifts and access areas are cleaned and disinfected daily.
- Protective barriers have been installed between customers and sales staff.
- It is possible to buy ski passes online or directly in hotel (the online store opens on November 15th) and pick them up at the pick-up boxes - you will find the pick-up boxes near to the ski pass office.

We are all in this together, and each of us is personally responsible for all of us!

In the past few months we have got used to leading a different kind of daily life, more aware and more responsible. Accepting personal responsibility and a few simple rules will help you to enjoy a safe and carefree vacation.

- **Maintain a distance of at least one meter** from other people.
- Always **carry a face mask with you** which covers your mouth and nose, and always **wear it if the minimum distance cannot be maintained**.
- A **greeting** can be very warm even **without a hug or handshake**. It's not without reason that

the eyes are known as the mirror of the soul.

Face masks covering mouth and nose are **mandatory** in the following places and situations (regardless of the minimum distance):

- at the **ski pass sales points**;
- in the entrance areas of the ski lifts;
- when getting on and off the lifts as well as during the entire ride;
- in mountain refuges and restaurants (though not at table);
- in ski rental/depots and stores;
- In ski buses.

Simple **hygiene measures help**: wash or sanitise your hands thoroughly and regularly.

Hand sanitisers are available at the lift stations, in stores and rentals, in restaurants and in accommodation establishments.
